

# MSEA's Apple Ballot Map

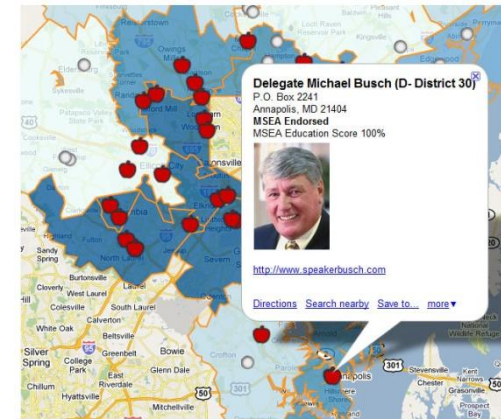

Your guide to Maryland's 2010 elections

*Would you like to know which Maryland legislators earned MSEA's prized Apple Ballot stamp of approval? Have you ever wondered how public education-friendly your district is?*

**MSEA's Apple Ballot Map will help you make an informed voting decision on Election Day.**

**Here's how it works:**

1. Visit [marylandeducators.org/appleballotmap](http://marylandeducators.org/appleballotmap).
2. First, look at the general distribution of public education-friendly districts on the statewide map.
3. Second, find the candidates in your region (Western, Central, or Southern Maryland, Baltimore City, DC Metro Region, or Eastern Shore) and see how friendly they've been to public education, based on their four-year voting records. Who has the Apple in your district?
4. Finally, enter your address to print out your sample ballot of MSEA-recommended candidates to take with you to the polls.

The map includes new candidates who received a recommendation from MSEA based on a questionnaire and interview. You can learn more about our endorsement process at [marylandeducators.org/endorseprocess](http://marylandeducators.org/endorseprocess).

You also can find a list of statewide candidates at [marylandeducators.org/mdrecommendations](http://marylandeducators.org/mdrecommendations).

To enter your address to print out your sample ballot of MSEA-recommended candidates to take with you to the polls, visit [marylandeducators.org/mseaballot](http://marylandeducators.org/mseaballot).

**And on Election Day, look for MSEA's Apple Ballots at your polling place!**
